

# KAGAWA Cycling Map

Gentle Blue Demon

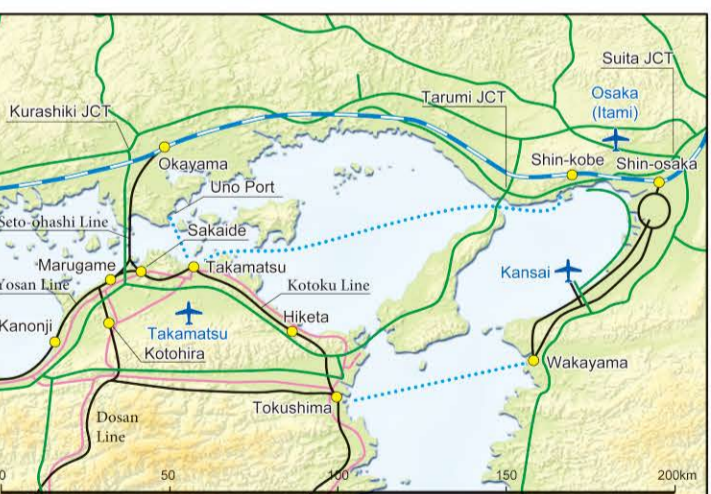

## KAGAWA Cycling Five Reasons

- Little rain, warm climate
- Plenty of flats, gentle slopes
- Ride a little way to see fabulous views!
- There's lots to see packed into Japan's smallest prefecture!
- Carbo-load with Sanuki udon noodles

 VISIT KAGAWA (Printed Oct. 2023)

### Japan's Rules of the Road

Everyone can make this "a safe place for cycling"  
 Kagawa Prefecture is promoting safe cycling through the establishment of rules for safe bicycle use. Let's share the roads with cars, pedestrians, and other bicycles with mutual respect and understanding.

- In principle, bicycles should ride on the roads, and on sidewalks only when necessary.**
- Ride on the left side of the road.**
- Yield to pedestrians on sidewalks, staying close to the road.**
- Follow all safety rules.**
  - No cycling under the influence of alcohol, cycling with extra passengers, or parallel riding.
  - Use your lights from 30 minutes before sunset.
  - Stop and follow signals at intersections.
  - Don't use your phone while riding.
- Helmet Use**  
 Helmets can save your life. Fasten and tighten your chin strap so it's snug!

### In Kagawa Prefecture, it is compulsory to take out bicycle damage insurance!

- The number of cases involving high liability sums for traffic accidents is increasing.
- Just in case, get bicycle insurance that covers accident liability.

### Cycling Safety Information

Don't forget to do a check before you ride!

- Tires**  
Is there enough air? Any tears, holes, or deformities?
- Brakes**  
Check if they work and how strong they are.
- Light**  
Always use a front and back light at night and in low visibility. It's the law!
- Check each part**  
Anything loose or too tight?
- Chain**  
Is it overly dirty? Is there proper lubrication?
- Feel**  
After checking the bike's condition, check that you feel comfortable sitting on the bike.

- Things to Have** Check before you ride!
- Hex key (Allen/Unbrako/zeta key)**  
The most bike parts use a 4-6 mm hex key.
  - Tire puncture repair kit**
  - Portable air pump**
  - Spare tube**
  - Bike key**
  - Bike bag**  
Normal footwear (including sandals)  
When on the ferry or other public transportation, or when visiting sights, please change out of your cycling shoes.

### Mechanical trouble

Bicycles with narrow tires are particularly vulnerable to punctures. If you know how to fix a puncture by yourself, you'll be able to go far!

- Bell**  
Ring your bell at warning signs and at places with poor visibility. Do not use your bell to tell pedestrians to get out of your way.
- Bike bag**  
Bicycles must be folded and placed into bike bags when travelling on public transportation. Please note, some bus and taxi companies may not accept bicycles even if they are placed in bike bags.

Be considerate towards pedestrians and local residents  
 The roads are not a race track. Routes may take you through local residents' neighborhoods, so show your courtesy and slow down when traveling through villages and hamlets.

### Be careful of sharp curves and accidents!

Kagawa prefecture has many tight curves and narrow roads, especially in the mountains and on the peninsula.  
 To prevent head-on collisions, please reduce your speed when visibility is poor or along curves with blue lines painted on the roadside.

## Things to do in Kagawa

**A cycling trip that begins at Takamatsu Airport**  
 The airport region is a cycling area. Takamatsu Airport is a haven for cyclists with its bicycle stands, tools and air pumps, and change rooms!
